### **ALBERTA CUP WAX PROTOCOL [\(updated Jan 13, 2026\)](#)**

Nordiq Alberta 2026 Glide Wax Protocol:

Following the club coach survey sent out in the 2024/25 ski season, results showed that 90% of the provincial clubs owned Star Next Med and Polar products already in their waxboxes. Based on this

information received, the Nordiq Alberta Technical Committee will choose a Star block to be buffered onto all race skies of all race categories, **not applicable to any of the Masters Series Age Categories**, for the Alberta Cup 2025/26 Race series (AB Cup 3,4,7 & 8) and the 2026 Alberta Winter Games in Cold Lake/Bonnyville. This protocol does not apply to the Tier-1 Canadian Western Championships, World Junior/U23 Trials, and ABCup 5&6 event. Based on the overwhelming responses from the Christmas survey to coaches, we had a 96% positive response towards continuing the remainder of this ski season with a wax protocol.

The Nordiq Alberta Technical Committee will choose the race wax the Wednesday morning of the race weekend, based on the weather forecast recommendation of the OC hosting the Alberta Cup event. If the average temperature is above -10oC the committee will choose Star Next Med and if it is below -10oC the committee will choose Star Next Polar, and if the temperature is in the middle, the committee will decide based on the weather trends. If you do not have the chosen wax, please join Nordiq Alberta at their tent or a specified location noted in the Whatsapp Coaches Forum to learn how to apply the wax with the provided waxes and buffing equipment. Nordiq Alberta has also posted video links within the Coaches WhatsApp forum and will post on their website an educational session on how to buff a block wax to your skis. We're very excited to present this opportunity to coaches throughout the province to keep waxbox costs down, and to be able to spend more time with athletes and less time in the waxroom!

Specifically for the U20 category of the 2026 Alberta Cup 3/4 event in Red Deer, athletes are asked to clean their bases from all base waxes and only buff their cleaned skis with the chosen race wax. This is to ensure that athletes have a similar experience and equally prepared skis to qualify for the 2026 Nordiq Alberta European competition trip.

Please see the waxing 'how to' video here. <https://www.youtube.com/watch?v=7sUTXyOQv7M>

### **WAX AREA**

No external power is located on site. Please bring a generator for your waxing needs. A limited number of waxing spaces will be available on the NORTH WEST side of the parking lot. Please advise the organizing committee of your space requirements during the online registration.

### **TRAIL CONDITIONS AND WEATHER REPORTS**
